

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	19 September 2022
Team ID	PNT2022TMID14436
Project Name	University Admit Eligibility Predictor
Maximum Marks	4 Marks

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

🕒 10 minutes to prepare
🕒 1 hour to collaborate
👥 2-8 people recommended

➔

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

🕒 10 minutes

A **Team gathering**
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

B **Set the goal**
Think about the problem you'll be focusing on solving in the brainstorming session.

C **Learn how to use the facilitation tools**
Use the Facilitation Superpowers to run a happy and productive session.

1

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

🕒 5 minutes

PROBLEM

How might we [your problem statement]?

Key rules of brainstorming

To run an smooth and productive session

➡ Stay in topic.

💡 Encourage wild ideas.

⏸ Defer judgment.

👂 Listen to others.

🗣 Go for volume.

👁 If possible, be visual.

Step-2: Brainstorm, Idea Listing and Grouping

2

Brainstorm

Write down any ideas that comes to mind that address your problem Statement

🕒 10 minutes

Sanosh S

- Watch tutorials learn ml
- required virtualization tools
- fast prediction ml predictor
- provide : user login, my library etc
- add details on how we predict
- rebuild from existing solutions

Sai Krishna
Raj Mohan

- let's learn most used ML and AI algo
- let's learn most used Data visualization
- provide service like "within budget universities"
- add college recommendation system
- deploy using cloud-fast and scalable

Arun Prakash

- collect new data's from users and implement a model
- build new predictive model with accuracy
- analyze existing esp:web services of such predictors
- present results in understandable visual
- for students thinking to take University provide guide how to select uni.?

Sai Sathish

- learn web dev and frameworks
- add location based predictions too
- provide necessary links to recommended colleges
- provide "stop" editor
- provide web service with prediction for both students and learners

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.
